Ways We Help in Class

☒ Give Sofia a written list of the steps for any task longer than 10 minutes
☐ Seat her near the board
☒ Let her listen to recorded versions of class novels
☐ Fewer items on homework
☒ Use a quiet signal (tap on the desk) to bring her back to the task
☒ Allow her to type written responses on a laptop
☐ Daily check of her agenda before she leaves

Quizzes and State Tests

☒ Time and a half
☒ Questions read aloud (math and science only)
☐ Alternate assessment

Targets for This Year

1. Sofia will read a sixth grade passage aloud at 115 words correct per minute on 3 of 4 monthly probes.

2. Sofia will show each step when solving multi-step equations, getting 4 of 5 correct.

3. Sofia will work on a task for 15 minutes with one reminder or fewer on 4 of 5 days.
