Individualized Education Program

Student: Marcus T. Lee Grade: 2 School: Brookside Elementary

Date of Birth: 01/30/2019 Student Number: S-4410937

Parents: Diane and Robert Lee IEP Dates: 10/01/2026 to 09/30/2027

1. Student Profile and Interests

Marcus loves dinosaurs and building with blocks. He is kind to classmates and follows routines well when they are predictable.

2. Learning Needs

Marcus is learning letter sounds and reads about 20 words correctly per minute. He has difficulty with fine motor tasks such as cutting and writing letters. Background noise makes it hard for him to focus.

3. Classroom Supports

- Seat Marcus away from the door and the pencil sharpener.
- Provide a slant board and pencil grip for writing tasks.
- Give one direction at a time and ask Marcus to repeat it back.
- Use a visual timer for transitions.
- Allow Marcus to answer orally instead of writing when writing is not the skill being assessed.

4. Instructional Program

Marcus will receive specialized reading instruction in a small group outside the classroom, 5 times a week for 30 minutes. He will receive occupational therapy twice a week for 30 minutes. The special education teacher will consult with the classroom teacher monthly for 20 minutes.

5. What We Are Working On

Goal 1 (Reading): By the end of the IEP, Marcus will read 40 words correctly per minute in a second grade passage, as measured by weekly fluency checks.

Goal 2 (Fine Motor): Marcus will write all lowercase letters legibly in 4 of 5 trials, as measured by work samples.

Goal 3 (Attention): During small group lessons, Marcus will stay with the group for 10 minutes with no more than one reminder in 4 of 5 sessions.

6. Additional Information

Marcus has a mild hearing loss in his left ear. Speak to him from his right side and face him when giving directions. He does not need a behavior plan.

The district will provide progress reports to parents three times a year with report cards.
