PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

Student Name: Liam Ortiz	Birthdate: 04/22/2013	IEP Date: 12/11/2018

Strengths/Preferences/Interests

Liam enjoys videos involving soft music and soothing images. He will sit for an extended amount of time while these videos are playing. He increasingly enjoys our smartboard activities and will sit for short periods if it is something that interests him. Liam enjoys technology-driven activities as opposed to paper/pencil ones.

Concerns of parent relevant to educational progress

Parent wants to meet to go over the Behavior Plan to make sure that Liam's behavior needs are being met.

Preacademic/Academic/Functional Skills

Several informal teacher-made assessments, as well as several assessments taken from Unique Learning Systems (ULS) curriculum were administered to Liam over the course of several days. Sessions were generally less than 10 minutes. After that amount of time, Liam would lose interest and become slightly agitated.

ULS Assessments: Picture Match: 10/18 Letter Match: 8/18 Number Match: 11/18 Letter ID: 8/18 Emerging Math: 10/18

Verbal and some physical prompting occurred during these assessments. The scores shown were not accomplished independently by the student. What these scores do indicate is the progress Liam has made attending to activities. Last year, I attempted to give the same assessments, but Liam would not attend to them at all. This year, Liam not only attended to the assessments, but when I would point to the correct answer, he would focus on where I was pointing and touch that answer.

Other assessments given: Liam responds to his name when called. When asked to "come over", he will generally walk towards me. Liam is able to hold a pencil and make marks on paper. He is less resistant to hand-over-hand activities than previously reported. I presented 20 picture cards to Liam, he pointed to an object 15/20. He pointed to the correct object 5 times. I asked Liam to point to various body parts. He correctly pointed to his head and mouth. I asked Liam to point to specific colors (I showed two colors at a time). He correctly pointed to green and red.

Overall, Liam's attention and on-task time has increased since last year's IEP. He will sit at the SmartBoard with the other students for longer periods of time. He will remain actively engaged in technology-driven activities for longer periods of time, as well.

Communication Development

Teacher input- Liam is able to utilize several 'signs' in order to communicate some of his wants/needs. In the classroom, Liam has used the 'signs', "more", "eat", "hungry". Parent states that Liam has used more 'signs' at home. Liam also communicates by using various verbal sounds, by looking at a person he wants something from, and/or by taking hold of their hand and guiding them to what he wants. Liam will occasionally point to a

picture of something he wants; although he rarely attends to the picture he is pointing to.

AAC assessment 2018: At the time of this assessment it was felt that Liam would benefit from the IEP team considering the following Augmentative and Alternative Communication supports:

• Trial of communication system with the following features:

o Dynamic display

o Speech generation

o Access to core words

o Options for masking during initial vocabulary acquisition

o Symbol paired with print

o Touch screen for direct selection

• Provide communication opportunities throughout the day

Gross/Fine Motor Development

Gross-motor: Liam is able to walk throughout the classroom. He usually moves out of the way if there is a desk or person in his way.

For student to receive educational benefit, goals will be written to address the following areas of need: Functional academics, Self-help, Communication, Fine motor

ANNUAL GOALS AND OBJECTIVES

Student Name: Liam Ortiz	Birthdate: 04/22/2013	IEP Date: 12/11/2018

Area of Need: Functional academics	Measurable Annual Goal# 2 Goal: By September 2019, given his name, along with two other names printed on name cards and placed in front of Liam, he will be able to correctly chose his name by reaching out and pointing or holding it in his hand with verbal and physical prompts; 4 out of five trials across three consecutive days as observed by the teacher/classroom assistants.
Baseline: Liam responds when his name is called.	☐ Enables student to be involved/progress in general curriculum/state standard ☐ Addresses other educational needs resulting from the disability ☐ Linguistically appropriate Person(s) Responsible: Student, teacher/classroom assistants

Short-Term Objective: By January 2019, given his name (typed on hot pink paper) placed directly in front of him, along with two other names (printed on white paper) placed farther back on the desk, Liam will be able to correctly chose his name by reaching out and pointing or holding it in his hand with 3 verbal and 3 physical prompts; 4 out of five trials across three consecutive days as observed by the teacher/classroom assistants.

Short-Term Objective: By March 2019, given his name (typed on light pink paper) placed directly in front of him, along with two other names (printed on white paper) placed farther back on the desk, Liam will be able to correctly chose his name by reaching out and pointing or holding it in his hand with 2 verbal and 2 physical prompts; 4 out of five trials across three consecutive days as observed by the teacher/classroom assistants.
